

Dentdale Run Committee

Public Meeting

1st February, 7pm, Memorial Hall

After much deliberation, The Dentdale Run Committee have decided to proceed with the Dentdale Run 2022.

We will be taking a number of precautions, including providing and using gloves, antibacterial gel and bottled water as well as trying to keep crowds of people in a contained outside area.

Instead of using the memorial hall and school, we will be holding the prize giving and providing catering on the school field and yard and this will also be the race HQ. This will hopefully contain as many people as possible away from the village, before and after the race.

The toilet block and the start/finish line will remain as normal.

We recognise that the run brings a large number of people to the village and that some residents may have questions or concerns. We would therefore invite you to come along and talk to us at this public meeting.

Covid measures will be in place in the hall with a one-way system (entry via the back door) and face masks must be worn.
